# School Board's Report.

---

We think for the past year we have been very fortunate in regard to teachers. Although they have in most divisions been young, yet they have shown themselves competent to fill their places and make some of our best teachers. We think the parents very negligent in performing their part. It is very discouraging to a teacher who is doing her utmost to make her school a success to have the scholars coming into the school room after the session has opened in the morning, besides it leaves a bad looking register. Our scholars have been from one to one and one-half hours late during the winter term or the first half of the term. Parents ought to see to it that their children start in season to be at the schoolhouse by nine o'clock. We think the parents should not allow them to be out too much nights, especially while attending school, as our schools cost money and it seems to be thrown away when all are not present.

## ROLL OF HONOR.

Including the names of all scholars who were present every half day of a term without being tardy:

NUMBER 1. First term: Arthur B. Bowlby, Othet. L. Bowlby, Bessie G. Bowlby.

No. 3. Ada Belle Lear.

No. 4. Nellie Chamberlain, Josie B. Pike, Ethel Chamberlain, Katie C. Richardson.

## Report of Board of Health.

Measles have been the only epidemic during the year. In March a young man came here with a bad cough, which he said he had had nearly all winter. Several days after he came the Board of Health was notified to go and see him. On seeing him it proved to be a case of measles. He had been at work for John Kenney, in Bradford, where there had been several cases of measles. The exposure here being general, seven cases of measles was the result. The epidemic did not subside until there were thirty more cases. Pneumonia was the complication. All cases recovered. The board placarded the houses as soon as notified of a case and sent a report to the State Board of Health.
